Name: _____   **Date: _____**

Day 2 - Students will be able to multiply a whole number of up to four digits by a one-digit whole number, using strategies based on place value and the properties of operations.

Key Information:
- A total of 1,378 shelters and homes in 7 different states opened up after the hurricane
- The shelters would house an average of 7 people per shelter
- Each of the survivors staying in the shelters would need to be provided with 3 meals a day

Developing the Question: What are we trying to answer?
